ISO
GUARANTEE

SureSteel® Escalator Transition Plates are a light weight product specifically designed and manufactured for escalators and moving walks. They are the perfect solution when hazard tactile ground surface indicators are required over escalator maintenance hatches.

Specifically designed for escalators, they are manufactured as single piece 600mm x 1200mm plates, are lightweight, durable and their stunning appearance makes them the perfect option for this application.

Available as either a Stainless Steel or Aluminium plate, SureSteel® Transition Plates can be used with the entire range of SureSteel® Select studs, ensuring they meet AS1428 luminance contrast requirements.

Supplied with Peel and Stick technology, making them quick and easy to install, requiring no mechanical fixing. They can also be supplied as pre-manufactured packs to suit specific escalator designs.

KEY FEATURES

- Purpose designed and manufactured for use with escalators and moving walks
- Lightweight design, less than 6kg
- R13 Slip Resistance
- Easy to install Peel and Stick design
- Meet the requirements of AS1428 - Design for Access and Mobility
- Available in Stainless Steel and Aluminium
- 2 surface finish options, matt and chequered
- Supplied with CTA 10 Year manufacturers warranty

PRODUCT OPTIONS

MATERIAL	PLATE	TOP	WEIGHT	PRODUCT CODE
Stainless Steel	Matt	Stainless Steel	14.0kg	CRTPS005
Stainless Steel	Matt	Polymeric Infill	15.0kg	CRTPP1005-XXX
Stainless Steel	Chequered	Stainless Steel	14.0kg	CRTPS005-CHQ
Stainless Steel	Chequered	Polymeric Infill	15.0kg	CRTPP1005-CHQ-XXX
Aluminium	Matt	Aluminium	6.5kg	CRTPS005-AL
Aluminium	Matt	Polymeric Infill	6.0kg	CRTPP1005-AL-XXX

XXX = Colour code to right

MATERIAL

SureSteel® Escalator Transition Plates are available in 316 marine grade stainless steel or tempered aluminium. The tactile studs can be solid concentric ring or coloured polymeric in a selection of standard or designer colours.

APPLICATIONS

Specifically designed as a lightweight, one piece solution for escalator and moving walk maintenance hatches. Suitable for both high and low volume traffic areas.

DIMENSIONS

600mm x 1200mm, 2mm plate depth and 5mm stud height. Plates can be tailor made to fit as one piece across the full path of travel and with a join along the tactile plate to suit installations that sit partially off the access plate.

INSTALLATION METHOD

Peel and Stick design allows easy install onto escalator maintenance hatches.

HARD SURFACE

COMPLIANCE

All CTA products conform with the requirements of the Australian standards and are tested by NATA certified labs.

Please consult with CTA for relevant test reports:

- AS1428:2009 Design for access and mobility
- AS4586:2013 Slip resistance classifications for new pedestrian surface materials
- NCC - National Construction Codes

LUMINANCE CONTRAST

Please view the CTA Luminance Brochure for details or contact your CTA representative to discuss or request an onsite luminosity test.

WARRANTY

CTA provides a comprehensive warranty, in accordance with our published warranty statement which can be viewed on cobbletac.com.

CTA COMPLETE CARE MAINTENANCE

Asset owners have a Duty of Care responsibility to maintain access product within design performance parameters. CTA offers a fully integrated maintenance program which includes regular scheduled maintenance and replacement of worn components where necessary. Please contact your CTA representative for information on our "Complete Care Program."

CTA INSTALLERS

CTA's accredited installers are available to do the installation work for you – with short turnaround times and guaranteed workmanship. Our installation team is the largest and most experienced in the nation, so you can rest assured you are in safe hands.

MORE INFORMATION

Product Installation, list of Approved Products and Material Safety Data Sheets are available on request.
